

How important and useful it was to do my placement at BRASS

My name is Rosemary Bobo and I did my first placement at BRASS for 100days.

This organisation has one of the friendliest environments. Everyone there is very helpful and always happy to help.

I enjoyed my placement at this organisation and I learnt a lot. Working at BRASS was fun and educative. It broadened my mind and I gained a lot of knowledge from both the service users and the staff.

I got to network and participate in activities outside the organisation which made me feel that I was part of the team.

I learnt new things that I wasn't aware of including information on voluntary return, benefits and experiences that some people had faced and how they dealt with these situations.

I enjoyed working at BRASS and would recommend other students to go there as well. Thank you very much for letting do my placement at BRASS. I enjoyed it and you guys took care of me whilst I was there. I appreciate it.

Thank you
